

Dear Cashmere,

I hope you all had a super week, and you didn't melt in the heat! It was definitely rather warm in the classroom. I was able though, to finally pick some of the carrots I have grown! We have also picked some very yummy strawberries and are soon to have lots of cucumbers - I'm not sure I'll be able to eat all of them! I know some of you have been growing things in the garden too, so I hope they are also doing well.

Hopefully you all got the letter about our keeping in touch sessions, I am really excited about seeing all of you who are coming. We will be having these for the next three Monday mornings and will be doing some fun activities and games. I have sent you all an email, but if you have any games or activities you may like to do then do send me a reply - remember that we will have to keep to social distancing rules and we may not be able to do all of your ideas. If you also have any questions about these, please do just let me know.

If you are coming into school at some point over the next three weeks, we need to collect back the ukuleles if you borrowed one, so please make sure you return them before the last week of term so we are able to safely quarantine them before putting them back.

Well done to all of you who are still working hard at home, I know it has been a very long time now, and it can be tricky to motivate yourself at home, but you have all been doing a fantastic job!

This week, I would like everyone (where possible) to:

- 1) Log on to Purple Mash and check for tasks set - as I am teaching in a bubble at school now, I won't be setting as much work on purple mash, but you can still access it for games and to choose your own activities.
- 2) **Maths:** - Practice your times tables.
- Log on to the Oak Academy and have a go at the maths lessons.
<https://www.thenational.academy/online-classroom/year-4/#subjects>

And/Or

- You could alternate Have a go at some of the BBC bitesize lessons.
- Complete some maths in your home learning packs.

3) **English:**

- Log on to <https://www.spellingshed.com/en-gb> and work on your spellings for the week - there will be new ones set EVERY week!
- Continue to work through your home learning pack.

4) **Science**

As we would have been working on an environmental project this term, I think it would be a great idea if you would like to have a go at getting a green Blue Peter Badge. This link (<https://www.bbc.co.uk/cbbc/findoutmore/blue-peter-apply-for-a-green-badge>) gives you all the information on how to apply and what you need to do if you would like to (make sure to get your parent's permission). You can choose any environmental theme you like and could create a 3D project, design a campaign with posters and badges, create something that will help the environment or write a letter about something that you have done to help the environment. If you are successful, you are

able to use your badge to get free entry to over 200 attractions across the UK (when they are open again), including Howletts, Port Lyonnais, Blue Reef Aquarium, Dover Castle and even the Eden project.

5) Finally, please remember to keep reading as much as you can!

Stay safe

Love Miss Chapman
