 - ensuring our curriculum and whole-school approach is developed in line with the UK Council for Internet Safety (UKCIS) '[Education for a Connected World Framework](#)' and DfE '[Teaching online safety in school](#)' guidance.
 - ensuring online safety is addressed in Relationships Education, Relationships and Sex Education, Health Education, Citizenship and Computing programmes of study and during specific sessions in the first week of every school year and Safer Internet Day.

 - implementing appropriate peer education approaches: supporting each other with online safety concerns and amending the pupil AUPs so they are appropriate for pupils to use.
 - creating a safe environment in which all learners feel comfortable to say what they feel, without fear of getting into trouble and/or being judged for talking about something which happened to them online.
 - involving the DSL (or a deputy) as part of planning for online safety lessons or activities, so they can advise on any known safeguarding cases, and ensure support is in place for any learners who may be impacted by the content.

- making informed decisions to ensure that any educational resources used are appropriate for our learners.

5.2 Vulnerable Learners

- Goat Lees Primary School recognises that any learner can be vulnerable online, and vulnerability can fluctuate depending on their age, developmental stage and personal circumstances. However, there are some learners, for example looked after children and those with special educational needs, who may be more susceptible or may have less support in staying safe online.

- Goat Lees Primary School will ensure that differentiated and appropriate online safety education, access and support is provided to vulnerable learners. Teachers will ensure that all learners understand the basic, key-concepts of online safety that are taught to our pupils and that they are aware of how to deal with issues that may arise at home or in school.
- Staff at Goat Lees Primary School will seek input from specialist staff as appropriate, including the DSL, SENCO, FLO to ensure that the policy and curriculum is appropriate to our community's needs.

 - Examine emerging technologies for educational benefit and undertake appropriate risk assessments before their use in the school is permitted.
 - ensure that appropriate filtering and monitoring is in place and take all reasonable precautions to ensure that access is appropriate.
 - recognise that due to the global and connected nature of the internet, it is not possible to guarantee that unsuitable material cannot be accessed via our systems or devices and as such identify clear procedures to follow if breaches or concerns arise.
- All members of the community are made aware of our expectations regarding safe and appropriate behaviour online and the importance of not posting any content, comments, images or videos which could cause harm, distress or offence.
